STARTER, STEP 10

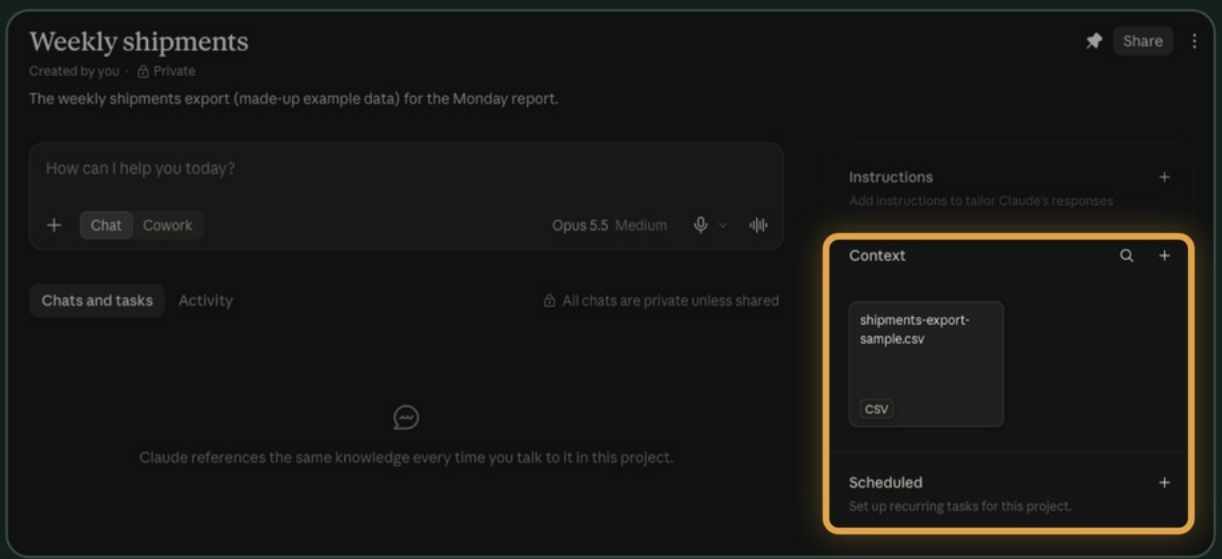

Let the Monday report run on its own.

Scheduled tasks: the step 9 task, every Monday at 07:00.

We ran it once, checked every number, then paused it.

WHERE

A project with the export, and a Scheduled section.

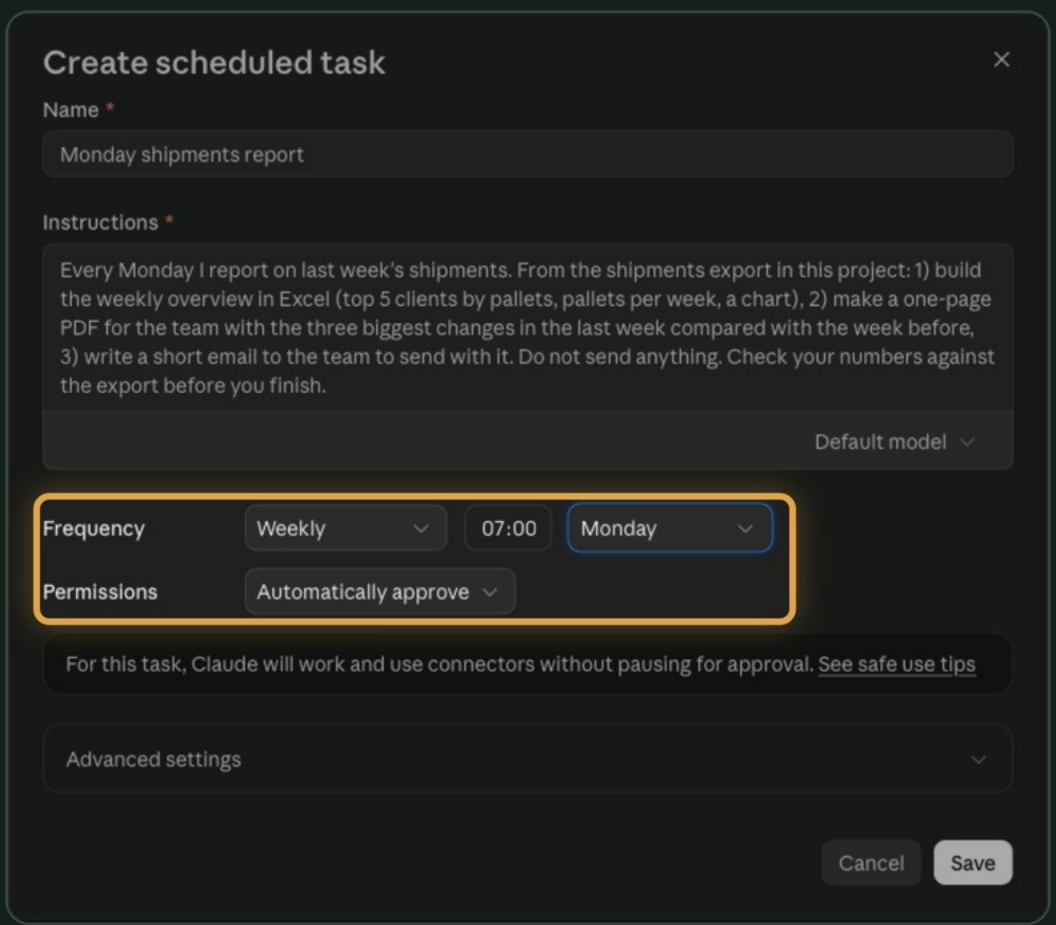

A private project. The step 9 export is under Context. Made-up clients.

Pro, Max, Team and Enterprise. Not on Free.

THE TASK

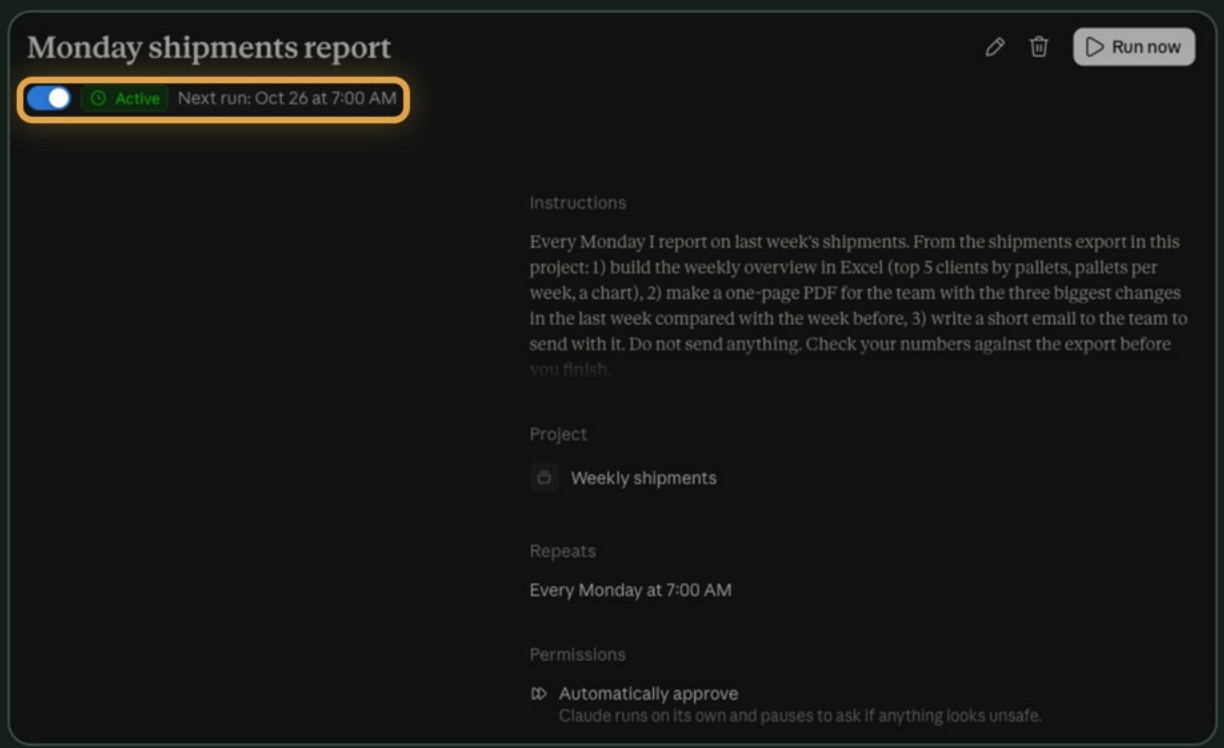

The step 9 prompt, plus "Do not send anything."

Weekly, Monday, 07:00. Automatically approve was the default.

IT IS ON

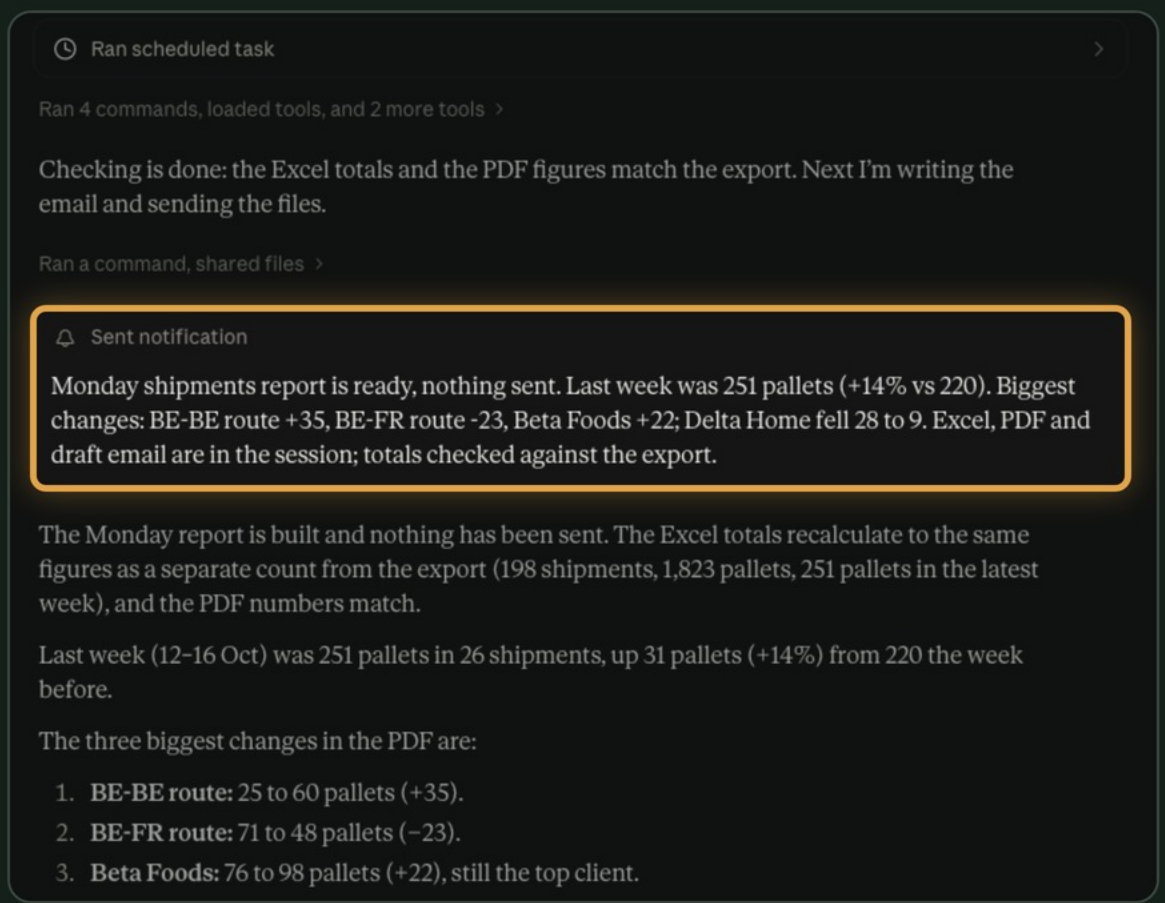

Active. Next run: Oct 26 at 7:00 AM.

Run now runs it once, right away. We pressed it once to test.

THE RESULT

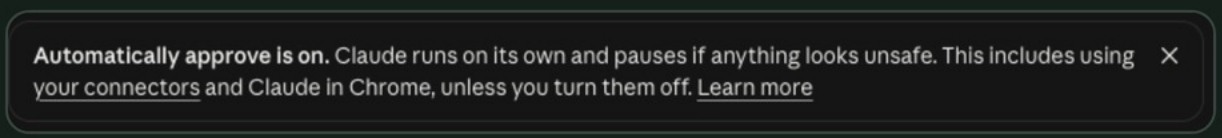

Excel, a PDF, the email, and a notification.

Every number matched our own count. Nothing was sent.

BEFORE YOU LET IT RUN

It runs without asking.

1. Look at the first runs before you trust it.

2. Turn off connectors the task does not need.

3. Write "Do not send anything." Send it yourself.

4. Replace the export with the new week's file. We did not test that yet.

THE RULE

A job you do every week: give it a schedule.

Pause it with one switch. The task stays.

The task and the sample export are free:
github.com/jwconsultancyteam/ai-starter-kit

Next: the Builder steps start.
